

GBMP's Lean & Six Sigma Subscription Support Service

ARE YOU

- Struggling with the balance between running the business and improving the business?
- Close to Lean success, but in danger of backsliding without a targeted boost in capability?

HAVE YOU

- Invested in broad-based training for your employees, and adopted of a new way of working that is beginning to generate results?

DO YOU NEED

- Experienced eyes to watch a new process or coaching to engage a few reluctant managers?
- To focus on a critical operational challenge?
- To bring new hires up to speed?

While the financial benefits of Lean and Six Sigma projects are compelling, finding the time and resources needed to sustain momentum can short-circuit the best efforts. Now, there is a way to accelerate your key improvement projects through focused expert attention when you need it and in the amount you need. ACCELERATE is GBMP's flexible subscription plan to amp up your Lean and Six Sigma efforts.

This is where an ongoing relationship with a GBMP experienced consultant through Accelerate can help.

A small investment in the right places can make a big difference in the results of your Lean and Six Sigma projects.

HOW IT WORKS

Subscribe to **ACCELERATE** quarterly, semi-annually or annually to reserve one day per month of consulting and coaching expertise from our dedicated consulting team. Call us as you need each month. You get to pick your project and we'll help.

HERE ARE JUST A FEW EXAMPLES OF PROJECTS WE CAN HELP YOU WITH:

STRATEGY DEPLOYMENT – creating alignment is critical to any Lean transformation. GBMP consultants have over 35 years hands-on experience with this key management practice.

SHINGO MODEL COACHING – GBMP is the number one Registered Shingo Affiliate with 8 certified instructors, four Shingo Prize examiners and three Shingo Prize recipients. We have helped dozens of companies to learn the Shingo Model and have coached multiple Shingo award recipients.

LEADING IN AN ENTERPRISE EXCELLENCE ENVIRONMENT – a fast-paced overview of management's role in developing a high-performance organization with deep Lean understanding and broad employee engagement is based upon thought leadership from Toyota and the foundational principles of The Shingo Model for Enterprise Excellence.

WORKPLACE ORGANIZATION AND VISUALIZATION – gain back needed space and reduce motion waste.

QUICK CHANGEOVER – a 50% reduction in set-up time is typical for a two-day project.

STANDARDIZED WORK – highly specified work based on real science will create predictability in your processes and create a solid foundation for your Lean transformation.

SCRAP REDUCTION – let our experienced Six Sigma Black Belts boost your quality and productivity.

ON-TIME DELIVERY – we'll help you to identify and remove a multitude of causes for late delivery. End an expediting culture and improve customer satisfaction.

LAYOUT IMPROVEMENT – Shorten lead-time, lower lot sizes and cut transport distance. We can help with a single value stream or an entire factory.

NEW PRODUCT DEVELOPMENT – there are NPDP specific tools that will drastically cut your time to market.

EMPLOYEE PROBLEM SOLVING – make every employee a problem solver with simple but powerful tools like Improvement Kata, 5 Why's, A3 and CEDAC.

IDEA SYSTEMS – energize your workforce with an impactful idea system.
